**Please Note:**

This timetable is based on a time, when the sun is 18 degrees below the horizon. The Salah times based on 18 Degrees is widely used throughout the Muslim world, including Saudi Arabia and the Indian subcontinent. Throughout the years Ulama and experts in many parts of the world including the UK have done MUSHAHADAH (observation with Naked eye) to verify the times. As regards to the 18 degree times Mufti Muhammad Taqi Saheb DB has written: *"After a good deal of research and continuing observation my father Mufti Muhammad Shafi as well as others, 99% of the Ulama in Pakistan and India are unanimous on the point that the time of Isha and Fajr begins when the Sun is 18 degree below the horizon"*
